

In line with the updated Government guidelines and relaxation of restrictions, we have revised our Clean + Safe measures.

Optional use of face masks by both guests and team members

Hand sanitiser stations available for use

Continuation of increased cleaning routines

Ventilation of gym, studios, wet facilities and public areas where possible

All other measures have been removed and remain under review. We welcome and respect everyone taking personal responsibility as restrictions ease.

If you have any concerns or questions, please do speak with a member of the team.
