

In line with the updated Government Guidelines, we have revised our Clean + Safe measures:

All staff and guests must wear a facemask in hotel public areas (Unless Exempt).

Facemasks must continue to be worn in spa's and treatment rooms.

Hand sanitizer stations available for use.

Continuation of increased cleaning routines.

Guests are not required to wear facemasks in the gym.

Ventilation of gym, studios, wet facilities and public areas where possible.

Facemasks are not compulsory in bars, restaurants or areas that Food & Beverages are being served.

All measures remain under review.

If you have any concerns or questions, please do speak with a member of the team.
